

Polio Eradication in India

Katy Wetterstrand spoke to the Club about polio eradication in India 2 weeks ago. This fundraising drive is to send a group of Rotarians from our District (which hopefully will include Katy) and the entire project will be funded by D5240. Matching District funds, Rotary Foundation Global, and the Bill and Melinda Gates Foundation will make this a very good use of club funds, because of the multiplication.

Rick Minton explained the Paul Harris Foundation and how our participation helps Rotary Int'l efforts. Pledges as of last week totaled over \$7,450 with 25 commitments, including 19 Paul Harris matching. Club members should know that their pledges are matched by the Club dollar for dollar. There's also a special "deal" for new members—double matching! To pledge, contact Rick at 805-239-3020 or rick@actionpros.com. Think about it: 2 billion vaccinations given!!!

Volunteers and Tee Sponsors for 14th Annual Wine Country Classic Golf Tournament

Please keep May 2 and 3 (Friday and Saturday) open on your calendars, as volunteers will be needed to help with the golf tourney. Marion Todd will be asking for volunteers and coordinating our efforts. If you haven't already signed up to be a tee sponsor, it's not too late. Contact Abe Flory, Chris Reneau, Simon Lobo, or Al Garcia for forms or to give your form and a check.

Humor—Engineers

There are three engineers in a car: an electrical engineer, a chemical engineer and a Microsoft engineer. Suddenly the car just stops by the side of the road, and the three engineers look at each other wondering what could be wrong.

The electrical engineer suggests stripping down the electronics of the car and trying to trace where a fault might have occurred.

The chemical engineer, not knowing much about cars, suggests that maybe the fuel is becoming emulsified and getting blocked somewhere.

Then, the Microsoft engineer, not knowing much about anything, comes up with a suggestion, "Why don't we close all the windows, get out, get back in, open the windows again, and maybe it'll work."

Guest Speaker—Larry Allen—APCD

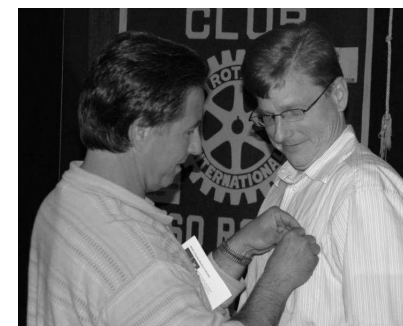

Larry Allen—Air Pollution Control District—briefed us. We've got great air, but we violate particulates and ozone standards. Big culprits: diesel trucks, backyard burning, growth and land use. Major impacts on seniors, kids, and the infirm. There are controls on industrial and construction air pollution, but we need to work on smart growth and reducing/replacing car trips. We

should also be concerned about climate change and greenhouse gases. Each of us needs to make choices as consumers, especially as to how we can reduce vehicle trips.

New Member—Carl Knoll

Kevin Will pinning Carl Knoll and welcoming him into Rotary. Carl is a legal information provider.

Welcome aboard, Carl!

Introducing Visiting Rotarians—(Slow News Day)

Doug Filipponi introducing visiting Rotarians (including himself).

Thanks, Doug!
